**To:** Commissioners Department  
**Subject:** Airport Expansion

John Tiepz 961-3644 called and stated he wanted to respond to the article/editorial in paper today from the ICARRE people who did not want airport runway expansion. He stated he is in favor of the expansion. Jet fuel is not toxic as they stated, and if noise is an issue then do an ordinance allowing certain noise from governmental aircraft (like the forest service) so they can provide the necessary services for the citizens in the valley. He stated a lot of people he talks to are in favor of the expansion, they just don't call or email or come in like the ICARRE people do. You are welcome to call him.
